

## Jagrati Advantage

The theory of **Multiple Intelligence** was developed in 1983 by **Dr. Howard Gardner**, a professor from Harvard University. It suggests that the traditional notion of intelligence, based on IQ testing, is far too limited. Instead, Gardner proposed multiple intelligences to account for a broader range of potential in children and adults.

At Jagrati, the MI method forms the basis of all of our training and activities. We take pride in our work when we say - Jagrati is the only organisation in Asia that uses MI theory's innovative ways to perform **practical assessments** to train children helping them to chart a path between their true potential and their career choices. By doing this we have proved that we can help in evading a 6-year gap between the start of their career and the actual one you want to pursue!

As we venture towards this cause, we hope to channelize our efforts, utilise our findings, nurture the students and build- A better tomorrow !

## About us

Jagrati is an organisation which has embarked on an endeavour to council children enabling them in taking the most important decision of their life- **Career Choice**, using globally acclaimed **Multiple Intelligence theory** and home-grown **Practical assessment**, we council and train children in identifying their true potential and mapping it to the possible career paths.

## Career Mentoring Program

A complete evaluation of a student based on **Multiple Intelligence Theory** using an **experiential analysis** is conducted followed by one-on-one counselling of students along with their parents based on the report.

## 360 degree

Students are provided with offline or online programme each month (for 6 months) that include physical, psychological and financial health along with mind grooming sessions, so as to prepare them for everything that future offers them.

## Parent consult

Every month on an assigned day parents can contact our experts regarding any issues concerning their children based on the program conducted.

## List of programs for each level:
